Parenting Children With Eczema

ARE YOU CHALLENGED BY YOUR CHILD’S ECZEMA?

The University of Queensland is conducting research into parenting children with eczema. Parenting a child with eczema presents many challenges (everything from the daily application of creams and avoiding eczema triggers, to more general parenting tasks). The aim of this study is to understand the factors that make the management of childhood eczema particularly difficult, and to use this information to develop strategies that might assist parents in managing their child’s eczema.

If you are a parent of a 3 to 10-year-old child with eczema, we would love to hear from you!

By sharing your experiences (confidentially), you will be making a valuable contribution to the development of much-needed childhood eczema management strategies for parents. Results of this study will be made available to all participants.

To complete the online survey, please log on to: http://exp.psy.uq.edu.au/eczema

For further information about the project or to request a survey to be posted to you, please email Katie Sillar (katie.sillar@uqconnect.edu.au) or phone Amy Mitchell (07 3365 7305) at the Parenting and Family Support Centre in the School of Psychology at the University of Queensland, St Lucia QLD 4072 (Fax: 07 3365 6724).

Thank you for your time and participation.
